FINANCIAL DYNAMICS NOMINATED BEST EUROPEAN FINANCIAL CONSULTANCY OF THE YEAR

Financial Dynamics (FD) has been nominated European Financial Consultancy of the Year by the Holmes Report. FD has won the award in recognition of the performance of its financial communications teams across the group's European offices in London, Paris, Frankfurt and Dublin.

The Holmes Report is compiled by the Homes Group to provide competitive insight and intelligence into the public relations market. FD was praised in particular for its progress over the past year in fulfilling its strategy of enhancing its geographical presence and growing its reputation internationally – as witnessed in the growth of its cross border revenue. In addition, FD maintained its presence at the top of the mergermarket M&A rankings in the UK and ranked number one in Germany and number three in France.

Charles Watson, Chief Executive, said: *"I am absolutely delighted that Financial Dynamics has been given this accolade. We have had a good year which has seen the business go from strength to strength. The award is a superb testament to the outstanding dedication, expertise and reputation of all our financial communications teams across Europe."*
