

FD adds to its operations in India with opening of new office

For immediate release: Monday 12th July 2010

Financial Dynamics International (“FD”), the strategic communications segment of FTI Consulting Inc. (NYSE: FCN), the global business advisory firm dedicated to helping organizations protect and enhance their enterprise value, today announced the next move in the development of its global business with the opening of its eighth office in the Asia-Pacific region.

The New Delhi office is headed by Vikram Mathur, recruited recently to spearhead the next phase of growth for the firm in India. An experienced and well regarded investment banker, he brings over 15 years of insight as a strategic adviser to the leaders of India’s major corporations. During spells with Standard Chartered, Barclays and Credit Suisse, based in Delhi, Mumbai, Hong Kong and Singapore, he advised on major privatizations, institutional investor relations, mergers, acquisitions and public offerings. Immediately prior to joining FD, he headed an investment boutique, advising early stage and mid-market companies on strategy and capital-raising.

FD has been active in the Indian market for many years, advising the country’s most successful business groups on their outbound global communications, particularly in support of capital markets transactions. The firm’s experience includes advising the Government of India itself on the transformation of economic perceptions, as well as several of the largest international IPOs and cross-border acquisitions by Indian companies. Retained FD clients in India currently include Religare, ICICI Bank, London-listed Unitech Corporate Parks and KSK Power Ventur plc. FD is retained by Tata Sons in the US and UK markets, having advised on the successful acquisitions of Corus and Jaguar Land Rover. FD has also worked with GMR International, Vedanta Resources and Infosys on transactions.

Currently the number one communications adviser in Mergermarket’s M&A league table for Asia-Pacific, by both deal value and volume, FD won the inaugural Financial Times/Mergermarket award for Asia-Pacific Financial Public Relations Firm in 2008.

Commenting on the launch of the New Delhi office, Group Chief Executive Charles Watson said: *“India is unquestionably one of the world’s most exciting growth markets – a key focus for our clients, multi-national corporations and investors. FD is already established as a leading communications adviser to Indian companies expanding their operations into global markets, supporting their most challenging cross-border transactions and building the international reputations of the country’s business champions. This new presence on the ground offers a huge advantage for both our Indian and international clients in local insight and real time responsiveness to their needs.”*
